HOW DOES IT WORK?

We take all those boxes of valuable papers and scan them, then make them PDF Searchable. We then put all that information on an 'IOSAFE' External Hard Drive. These drives are virtually indestructible. They are fire proof, water proof, shock proof and crush proof. No more worries about system crashes, fires, floods or earthquakes that destroy critical information and say goodbye to expensive storage units or free up space for other business uses.

Flexible solutions for your business needs

DOCUMENT IMAGING

At 6 cents a page this is by far the most cost effective solution. We scan your documents in and make them PDF Searchable saving you time and money. No more costly storage spaces, ghastly rooms of documents or worries of natural disasters that could easily destroy valuable information.
